**Scheme outline of SHREYAS****Scheme for Higher Education Youth for Apprenticeship and Skills  
(SHREYAS)**

It is only when the youth entering employable age acquire skill-sets that are required by the growing economy, would the country be able to reap the benefits of the demographic dividend. Therefore enhancing employability of the students in the higher educational institutions is a high priority of the Government of India. The UGC Quality Mandate has set a target of ensuring that atleast half of the students passing out of the higher education system should find suitable employment on completion of their degree programmes by 2022.

Following on this vision, Government is launching a Scheme for Higher Education Youth for Apprenticeship and Skills (SHREYAS) to align the education curriculum with the needs of industry & service sectors, and promote an On-The-Job exposure to all students in skill sets of their choice and aptitude. A combination of classroom & "hands on" learning would equip students with professionally relevant skills, boost their employability, and thereby contributing immensely to their self confidence, apart from improving the overall human resources in the Country.

**SHREYAS** is a programme conceived for students in degree courses, primarily non-technical, with a view to introduce employable skills into their learning, promote apprenticeship as integral to education and also amalgamate employment facilitating efforts of the Government into the education system so that clear pathways towards employment opportunities are available to students during and after their graduation.

**SHREYAS** is a programme basket comprising the initiatives of three Central Ministries, namely the Ministry of Human Resource Development, Ministry of Skill Development & Entrepreneurship and the Ministry of Labour & Employment viz the National Apprenticeship Promotion Scheme (NAPS), the National Career Service (NCS) and introduction of BA/BSc/BCom (Professional) courses in the higher educational institutions.

**Objectives**

2. Following are the objectives of **SHREYAS**
- i) To improve employability of students by introducing employment relevance into the learning process of the higher education system
  - ii) To forge a close functional link between education and industry/service sectors on a sustainable basis
  - iii) To provide skills which are in demand, to the students in a dynamic manner
  - iv) To establish an 'earn while you learn' system into higher education
  - v) To help business/industry in securing good quality manpower
  - vi) To link student community with employment facilitating efforts of the Government

Scheme outline of SHREYAS

Operation of the Scheme

3. The primary scheme will be operated in conjunction with National Apprenticeship Promotion Scheme (NAPS) which provides for placing of apprentices upto 10% of the total work force in every business/industry. The scheme will be implemented by the Sector Skill Councils (SSCs), initially the Banking Finance Insurance Services (BFIS), Retail, Health care, Telecom, Logistics, Media, Management services, ITeS and Apparel. More sectors would be added over time with emerging apprenticeship demand and curriculum adjustments.

4. **Three Tracks in Implementation in SHREYAS**

The programme would witness simultaneous implementation along three tracks.

**1st Track: Add-on apprenticeship** (Degree apprenticeship):

The students who are currently completing the degree programme would be invited to choose a job role of their choice from a selected list of apprenticeship job roles given by the Sector Skill Councils of the MoSDE. The apprenticeship programme is normally about (6) months and would be prefixed by basic training regarding the sector (theory). The programme would commence immediately after completion of the degree programme (Starting from May each year). During the apprenticeship period, the student would get a monthly stipend of about Rs. 6,000 per month by the industry. At the end of the apprenticeship period, there would be a test conducted by the Sector Skill Council concerned and successful students would get skills certificate in addition to their degree certificate.

**2nd track: - Embedded Apprenticeship**

Under this approach, the existing B.Voc programmes would be restructured into B.A (Professional), B.Sc (Professional) or B.Com (Professional) courses - which would include not only educational input, vocational input, but also a mandatory apprenticeship ranging from 6 to 10 months depending on the requirement of the skill. For example, a BBA course in Logistics would have one semester of classroom teaching and the next one as apprenticeship. Alternatively, one full semester of an existing degree or B.Voc course would be dedicated to apprenticeship with industry.

During the apprenticeship period, the student would get a monthly stipend of about Rs. 6,000 per month by the industry, 25% of which would be reimbursed under the NAPS programme. At the end of the apprenticeship period, there would be test conducted by the Sector Skill Council concerned and successful students would get skills certificate in addition to their degree certificate.

The process of embedding apprenticeship & skill content into them, or modify the curriculum of existing degree courses to reduce classroom content and incorporate basic skill training with apprenticeship is currently underway with participation of the Sector

**Scheme outline of SHREYAS**

Skill Councils and it is expected that these courses would be launched from academic year 2018-19.

**3rd Track: Linking National Career Service with Colleges:**

Under this, the National Career Service (NCS) portal of Ministry of Labour & Employment would be linked with the Higher Education institutions. As of now, more than 9,000 employers have posted requirement of more than 2 lakh vacancies, for which the students of these institutions which do not have the facility of campus recruitment and would improve their employment opportunities. Apart from this, the students would be trained in soft skills required by the market.

**Modalities**

5. The scheme would be operationalised by coordination of Ministry of Skills Development and Entrepreneurship (MSDE) and the Ministry of Labour. The operation would be as given below:

- a) The Sector Skill Councils (SSCs) have identified more than 100 areas where they would be able to find apprenticeship opportunities. They along with the colleges concerned (with the help of their placement cells), would identify the industries where the apprenticeships would be provided.
- b) Higher Educational Institutions can log-into the SHREYAS portal and express their interest in the skill areas, along with the expected number of students who are expected to opt for it.
- c) This demand would be scrutinised by the SSC concerned, who would confirm on portal, the positions available.
- d) Based on this confirmation, the HEI would upload the names of the students on the SHREYAS portal.
- e) The NAPS would thereupon generate the Contract between the industry and the student.
- f) After this, the monthly stipend would be paid by the industry, and 25% of this would be reimbursed by NAPS portal subject to a maximum of Rs.1,500 per month.
- g) The SSC would monitor the progress and would conduct the examination at the end of the apprenticeship period, and would give certificate to the successful candidates. These certificates are valid throughout India for seeking employment.

**Stakeholders**

6. **Role of the Institutions:** The higher education institutions would explain the scheme alongwith various options to the students who are in the final year, and elicit their interest in participation. After collecting interest from various students, the institution would register on the SHREYAS portal, duly indicating the skill job roles alongwith likely number of students in each role.

**MHRD**

Government of India

Ministry of Human Resource Development

**Scheme outline of SHREYAS**

7. **Role of SSCs:** SSCs would identify industries for apprenticeship, and would also conduct assessment leading to certification. They would be communicated the interest of the students as registered by the HEIs. They would, based on this, arrange and confirm the establishments where the students would be provided as apprenticeships. Based on this, The SSC will enrol them as apprentices and generate contracts between the student and the business enterprise. They will also conduct assessment of the candidate on completion of the apprenticeship and issue certification. Whereas the certification is not a guarantee for placement, it is expected to vastly enhance his choice of securing employment either in the same enterprise or any other enterprises in that sector.

8. **Role of MSDE (NSDC):** MSDE operates the NAPS programme through NSDC. They would not only monitor the programme, progress of the apprentices, but would finance the programme by disbursing the claims from the business enterprises towards stipend reimbursement as per the NAPS. The ongoing efforts of the SSCs would be monitored by MoSDE, which would also periodically introduce new SSCs into the SHREYAS fold. The entire programme would progress with dynamic interface & information sharing between MHRD and MoSDE.

**Financing**

9. Under the NAPS scheme, Central Government shares 25% of the stipend per month subject to a maximum of Rs.1500 p.m during the period of the apprenticeship. Apart from that, an amount upto Rs.7500 will be met towards basic training cost, where needed.

**Target**

10. In all the tracks together, it is proposed to cover **50 lakh students by 2022.**

**Timelines**

11. The following would be the proposed timelines:

- The portal for registration of the institutions will be opened on **15<sup>th</sup> February 2019.**
- The institutions desirous of participating would need to register before **25<sup>th</sup> February 2019** on the portal
- SSCs together with the placement cell of colleges would check the demand and confirm the possible numbers by **March 10, 2019**
- After confirmation by SSCs the HEIs would upload the details of the students before **25<sup>th</sup> March 2019.**

**MHRD**

Government of India

Ministry of Human Resource Development

**Scheme outline of SHREYAS**

- Confirmation of the apprenticeship along with allocation of the business/industry would be completed by **7<sup>th</sup> April 2019**.
- The contracts between the students and the employers will be reached in the month of **April 2019**.
- The degree apprenticeship programme will commence from **May, 2019**.
- Embedded Apprenticeship programmes of select sectors will commence from **July-**
- Alignment of AISHE database with NCS and operationalisation of linkage for student benefit will take place by **15.12.2018**
